National Center for Education Statistics

"The purpose of the Center shall be to collect and disseminate statistics and other data related to education in the United States and in other nations. The Center shall . . . collect, collate, and, from time to time, report full and complete statistics on the conditions of education in the United States; conduct and publish reports on specialized analyses of the meaning and significance of such statistics; . . . and review and report on education activities in foreign countries."--Section 408(b) of the General Education Provisions Act, as amended (20 U.S.C. 1221e-1).

Foreword

This report is the fifth in a series on postsecondary schools that provide occupational training. Data on these schools were first collected in 1970; the last complete listing of schools was published in 1978. This report includes information on over 7,600 noncollegiate postsecondary schools, as well as listings of colleges and universities that offer occupational training programs. Data on the noncollegiate schools were collected through a special survey by NCES. Information on colleges and universities was obtained from the Survey of Earned Degrees Conferred, which is part of the Higher Education General Information Survey (HEGIS) conducted by NCES. Although this report contains data on over 9,000 postsecondary schools with occupational programs, only those schools that are accredited are included in the directory listing.

This series of reports has been used by school and agency guidance counselors to make referrals for career training, by labor market planners and analysts to develop information on the supply of trained workers in various fields, and by State and regional education planners to obtain a more complete picture of postsecondary educational opportunities in their areas.

Although NCES made every effort to identify all postsecondary schools offering occupational programs, omissions were inevitable. Any information regarding incomplete or inaccurate listings in this report would be greatly appreciated.

Two computer tapes with information from the survey are available. The directory tape provides the same information included in this report. The programs and enrollments tape contains detailed information on programs, enrollments, completions, and staff in noncollegiate postsecondary schools. Information on purchasing these tapes is available from the Statistical Information Office, Brown Building, Room 600, 400 Maryland Avenue, SW., Washington, D.C. 20202, phone (202) 254-6057.

Summary Tables

Number of postsecondary schools with occupational programs: United States, 1982:

1. By type of school and by State	xiii
2. By control of school and by type of school	xiv
3. By State and by control of school	xv
4. Enrollment in noncollegiate postsecondary schools with occupational programs, by State and by control of school and status of students: United States, 1982	xvi
5. Trend in number of postsecondary schools with occupational programs, by type of school control, and accreditation status: United States, 1971, 1974, 1976, 1978, 1980 and 1982	xvii

Introduction

This 1982 directory lists public and private schools offering postsecondary occupational education. It is intended to meet the needs of manpower and educational planners at the Federal, State, and local levels and others who require information on the current and potential supply of skilled workers. This directory should help, for example, to identify the types of programs offered at the local level in order to determine whether such programs should be expanded to meet projected demand for the occupation or be curtailed because demand is not anticipated. In vocational guidance, counselors may more easily identify those schools offering training for particular occupations in which students are interested. Also, the directory constitutes a frame for selecting samples of schools for research surveys.

Concepts and Definitions

For the purpose of this directory, *occupational education* is defined as educational instruction designed to: (1) prepare individuals for gainful employment in recognized occupations and/or new and emerging occupations; (2) assist individuals in making informed and meaningful occupational choices; and (3) upgrade or update the skills of individuals already in an occupational field.

An *occupational education program* is a planned sequence of courses leading to a specific occupational objective.

Only those public and private schools and institutions that offer specified instructional programs at the postsecondary level are included in the directory.¹ The types of listings include schools classified as vocational/technical, business/commercial, cosmetology/barber, flight, arts/design, hospital, and allied health; technical institutes; junior/community colleges; and 4-year colleges and universities. Excluded are museums, libraries, tutorial services, schools and community agencies which offer avocational training or hobby courses, self-employed instructors, on-the-job training in industrial settings, formal labor/management apprenticeship programs, and other types of schools not open to the general public.

¹See appendix section on Program Abbreviations for the list of program offerings which qualify schools for inclusion.

Criteria for Inclusion

To be listed in this directory, public and private schools and institutions that offer postsecondary occupational programs below the baccalaureate level in the United States must fall within one or more of the following categories:

1. Public schools approved by a State department of education;
2. Public and private schools approved by a regional accrediting association recognized by the U.S. Department of Education (ED);
3. Private schools offering programs approved by an accrediting association or agency recognized by ED;
4. Public and private schools meeting the Veterans Administration's requirements or the eligibility requirements of ED's Federal Insured Student Loan or Pell Grant programs.

Accreditation of all schools reported in this directory was verified by ED's Eligibility and Agency Evaluation Staff. Approval for veterans' education programs was based on a list provided by the Veterans Administration.

Accreditation

The U.S. Department of Education does not accredit, recommend, or approve any school or educational institution. It does, however, maintain a list of recognized accrediting agencies and associations. In general, there are two types of accreditation: (a) institutional and (b) specialized or program.

Institutional accreditation is awarded by the secondary and postsecondary commissions of six regional accrediting associations. This type of accreditation applies to the total institution and signifies that the institution as a whole is achieving its objectives satisfactorily. The regional accrediting agencies (with the designating symbols used in this directory) and the States within their jurisdiction are listed below:

A New England Association of Schools and Colleges: *Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont*

B	Middle States Association of Colleges and Secondary Schools: <i>Delaware, District of Columbia, Maryland, New Jersey, New York, Pennsylvania, Canal Zone, Puerto Rico, Virgin Islands</i>	DH) DT)	Dental Education: dental assistant, dental hygienist, and dental technician programs
C	North Central Association of Colleges and Schools: <i>Arizona, Arkansas, Colorado, Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, New Mexico, North Dakota, Ohio, Oklahoma, South Dakota, West Virginia, Wisconsin, Wyoming</i>	ECPD	Engineers' Council for Professional Development: engineering technology programs
D	Northwest Association of Schools and Colleges: <i>Alaska, Idaho, Montana, Nevada, Oregon, Utah, Washington</i>	FSE	American Board of Funeral Service Education: funeral service programs
E	Southern Association of Colleges and Schools: <i>Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, Texas, Virginia</i>	HT	AMA/CME: histologic technician programs
F	Western Association of Schools and Colleges: <i>California, Hawaii, American Samoa, Guam, Trust Territory of the Pacific Islands</i>	ID	Foundation for Interior Design Education Research: interior design aide programs
Specialized or program accreditation is conferred by a number of organizations which are national in scope and represent a specialized area of study (e.g., cosmetology, practical nursing, trade and technical education, etc.). Program accreditation applies only to the specific program offered by the school and not the school itself. The associations and agencies which accredit programs and the abbreviations used in this directory are:		IT	AMA/CME: inhalation (respiratory) therapy technologist programs
AICS	Association of Independent Colleges and Schools: business programs	MA	AMA/CME: medical assistant programs
ADN	National League for Nursing: associate degree programs in nursing	MLT	Accrediting Bureau for Medical Laboratory Schools: medical laboratory technician programs, medical assistant programs
ANES	American Association of Nurse Anesthetists: anesthesiology programs	MLTAMA	AMA/CME: medical laboratory technician programs
ANTECH	American Veterinary Medical Association: animal technician programs	MRT	AMA/CME: medical records technician programs
CAC	Cosmetology Accrediting Commission: cosmetology programs	MT	AMA/CME: medical technician programs (certificate only)
CLA	American Medical Association, Council on Medical Education (AMA/CME): certified laboratory assistant programs	NAPNES	National Association for Practical Nurse Education and Service: practical nurse programs
CT	AMA/CME: cytotechnologist programs	NATTS	National Association of Trade and Technical Schools: trade and technology programs
DA)	American Dental Association, Council on	NHSC	National Home Study Council: all programs
		NMT	AMA/CME: nuclear medical technician programs
		NUR) PN)	National League for Nursing: diploma nursing and practical nursing programs
		PA	AMA/CME: programs for physicians assistant and assistant to the primary care physician
		RTT	AMA/CME: radiation therapy technologist programs
		RT	AMA/CME: radiologic technologist programs

Format and Explanation of Data

Public and private postsecondary schools are listed alphabetically under the States and the cities in which they are located. Each school listing is arranged in the format shown below.

School number. A number is assigned to each school in sequence as it appears within the State. The school listed first in each State is assigned the number 1. These numbers are unique to this publication and are used only to facilitate identification of the school from the School Index or the Program Index. They do not appear on the computer tape.

Name and address. Names and addresses include the county and ZIP code. Abbreviations are in accordance with those listed in appendix A.

Telephone. The area code and the telephone number are provided.

ID number. A serial number is assigned to non-collegiate schools. All institutions of higher education are assigned a Federal Interagency Committee on Education (FICE) code.

Control or affiliation. The following terms are used to identify the type of control of the school listed:

Abbreviation	Definition
Public	Public—Controlled by Federal, State, or local government
Prop	Proprietary—Operated as a private, profit-making school
Ind	Independent—Operated as an independent nonprofitmaking school

Type of school. Definitions for the various types of schools at the postsecondary level of instruction were originally adapted from *Standard Terminology for Curriculum and Instruction in Local and State School Systems* (OE 23052). Schools were classified according to the types of occupational programs they offered.

The following list gives the abbreviation and program offerings for each type of school.

Voc	Vocational/technical —A school offering a wide variety of occupational programs or clusters of programs. Schools in this category may be considered multiprogram schools and are usually public schools.
Tech	Technical institute —An institution (usually 2-year) offering instruction in one or more of the technologies at a level above the skilled trades and below the professional level.
Bus	Business/commercial school —A school offering programs in business occupations such as accounting, data processing, word processing and secretarial. Special-purpose schools that offer the following programs are included: Court reporting, finance, insurance, real estate, and sales.
Cos/Bar	Cosmetology/barber school —A school offering programs in hairstyling for men and women and in the care and beautification of hair, complexion, and hands.
Flight	Flight school —A school offering programs for training as aircraft mechanic, commercial pilot, or in other technical fields related to aviation.
Trade	Trade school —A school offering training in one trade or craft or a single cluster of trades or crafts, such as auto mechanics, baking, bartending, carpentry, carpetlaying, commercial diving, cooking, dog grooming, drafting, fire protection, horseshoeing, locksmithing, meat processing, police training, truck driving, and welding.

Arts *Arts/design school*—A school offering training in the performing arts, such as acting, dance, music, and singing; creative design, such as commercial art, fashion design, floristry, interior design, photography; and radio/television broadcasting.

Hosp *Hospital school*—A hospital offering programs in paraprofessional health or medical fields, such as nursing or radiologic technology.

Hlth *Allied health school*—A school (other than hospital school) offering programs in paraprofessional health or medical fields, such as dental assisting, medical assisting, practical nursing, and mortuary science.

Jr Col *Junior/community college*—An institution offering the first 2 or 3 years of college instruction in occupational programs. It frequently grants a certificate or an associate degree but not a bachelor's degree.

Col *College*—An institution offering instruction at the college level leading to a bachelor's or higher degree. It frequently offers occupational programs leading to an associate degree, diploma, or certificate below the baccalaureate.

Other Schools or institutions not classified in any of the above groups include schools of modelling, brewing, maritime occupations, and horsemanship.

Enrollments/completions. For most schools, the enrollment figure shown is the total (including full-time and part-time) ever enrolled in occupational programs over a period of 1 year. Generally, enrollment data refer to the 1980-1981 school year or to the 1981 calendar year, depending on the recordkeeping practices of the school. For colleges and junior/community colleges, however, the figure shown represents only those students who, in 1981, were awarded a certificate, associate degree, or diploma in one of the occupational programs. Where schools did not provide enrollment data, the space is left blank.

Accreditation. Abbreviations are used to indicate the school or program accreditation awarded, as of July 1982, by ED-approved accrediting bodies as listed in the section "accreditation."

Eligibility. Abbreviations are used to indicate whether schools have established eligibility with the Veterans Administration (VA) or with ED's Federally Insured Student Loan (FISL) or Basic Education Opportunity Grant (Pell Grant) programs.

Programs. Only those instructional programs which are occupationally oriented are listed. Program titles are taken

from *Standard Terminology for Curriculum and Instruction in Local and State School Systems* (OE 23052) and *A Taxonomy of Instructional Programs in Higher Education* (OE 50064). See the section in appendix A "program abbreviations" for an alphabetical list of programs included in the directory and for the abbreviations used.

Special Note on Indexes

Two indexes are provided in this publication: a School Index and a Program Index.

The *School Index* is an alphabetical listing, by name of school, of all schools included in the directory. Each name is followed by a State abbreviation and school number as a reference to its location in the directory.

The *Program Index* is a feature for use primarily for career guidance assistance. It lists program offerings, followed by references to the schools that offer these programs. Used in conjunction with the U.S. Department of Labor's *Occupational Outlook Handbook*, the directory should prove valuable for teachers and guidance counselors.

Methodology

The 1980 universe listing of almost 12,000 accredited and unaccredited schools was used as the basis for developing this edition of the directory. State directors of vocational education were asked to notify NCES of any name and address changes and school closings or openings that occurred since the last directory was published. Lists from other sources were also examined for new schools.

Updated information on enrollments and program offerings of these schools was compiled through the use of several sources:

1. About 1,600 junior/community colleges and 4-year colleges and universities which offer occupational programs below the baccalaureate level were identified from the Higher Education General Information Survey (HEGIS) for 1981. Data on programs and number of degrees awarded were taken from the Earned Degrees Conferred schedule.
2. A random sample of 1,900 schools selected from the 1980 universe listing (excluding HEGIS schools) was made to collect detailed information on such items as length of programs, tuition and other charges, enrollments (full-time and part-time, age, sex, and ethnic group), completions, and type and sex of staff. The results of this survey will be published in a separate report. Information necessary for the universe and directory update was extracted from the questionnaire forms used in this survey.

3. The remaining schools were sent questionnaire forms designed solely to update the universe and directory. A copy of the form appears in appendix B. Attempts were made to contact nonrespondents, first by mail and later by telephone. Schools were considered closed if no telephone listing was found.

The final directory listing includes detailed information on the approximately 6,000 accredited postsecondary schools with occupational programs.

Summary of Findings

Enrollment in noncollegiate postsecondary schools with occupational programs was 1.9 million in 1982, approximately the same level as in 1980. In 1982, there were 7,603 noncollegiate postsecondary schools with occupational programs. An additional 1,603² colleges and universities offered occupational programs; however, no enrollment data were collected from these schools. Overall, there were 9,208 postsecondary schools offering occupational training programs in 1982. School data are for these 9,208 schools; enrollment data are for the 7,603 noncollegiate schools only.

²These 1,603 colleges and universities are included in the Higher Education General Information Survey (HEGIS) and were not surveyed in this effort.

Nearly 25 percent of the schools were classified as cosmetology/barber schools, 14 percent were business/commercial schools, and 11 percent were community/junior colleges (table 1).

Over 65 percent of the schools were proprietary, and another 14 percent were independent nonprofit institutions (table 2). Only 21 percent were public, with the majority of these being colleges and universities. Private schools accounted for over 75 percent of total enrollments in the 7,603 noncollegiate schools.

California had both the highest number of schools, with 1,043 (table 3), and the largest number of students in occupational programs, with 248,800 (table 4). Other States with large numbers of students included New York, Michigan, Florida, and Pennsylvania (table 4).

The vast majority (73 percent) of students enrolled in noncollegiate occupational programs were full-time students (table 4). As in the past, a small majority (54 percent) of students were women, a slight increase from 1980.

Almost 65 percent of all schools were either accredited (table 5) or eligible for Federal student grant or loan programs.

Changes in Definitions: 1971 to 1982

Item	1971 Directory	1974 and 1976 Directories	1978 Directory	1982 Directory
Enrollment	Provided for public schools only. For HEGIS schools, enrollment figures refer to the total number of students in the institution.	Provided for both public and private schools. For HEGIS schools, enrollment figures refer to total students who receive associate degree and other formal awards below the baccalaureate.	No change.	Provided for both public and private schools. HEGIS school enrollments not included in tables.
Program offerings	Not listed if the schools did not check their program offerings from a list of 160 programs.	Listed for all schools. Schools were asked to provide a list of program offerings which were then classified into appropriate categories.	No change.	No change.
Number of schools	Listed for all schools provided by States. However, many were closed or did not offer occupational programs at the postsecondary level.	Deleted closed and out-of-scope schools.	No change.	No change.
Control	Listed separately independent nonprofit schools and schools with religious affiliation.	No change.	Combined independent nonprofit schools and schools with religious affiliation into one category: independent nonprofit.	No change.
Type of school: Hospital	Listed all known hospital schools.	Deleted hospital schools which were administratively affiliated with a college to avoid double counting of students.	No change.	No change.
Barber	Classified as trade school.	Combined with cosmetology schools since many started to combine their activities under the generic term "hairstyling."	No change.	No change.
Home study	Included some sales offices of correspondence schools.	Deleted sales offices scattered throughout the United States and retained main offices only to avoid double counting of students.	Deleted category of "home study" on the principle that home study is a method of delivery rather than a type of school. These schools are now classified by appropriate type.	No change.
Vocational/technical	In addition to its current definition (see page 6), included schools which offered programs which could not be classified elsewhere.	No change.	New school types Arts/design and Allied health were added to list to account for large miscellaneous group.	No change.
Other	Included correctional institutions in the universe listing (but not included in the directory).	Deleted correctional institutions from universe listing because these schools are not open to the general public.	No change.	No change.

Table 1.—Number of postsecondary schools with occupational programs, by State and by type of school: United States, 1982

Indexes

Program Index

School and
Institution Index

Program Index

This section of the directory should be of great value to guidance counselors and students seeking names and addresses of schools offering occupational programs.

The Program Index is arranged in alphabetical sequence by title of occupational program, followed by the abbreviation used in the main directory listing to designate types of program offerings. Users should also check references to related programs. For purposes of clarity, short explanations appear in parentheses beneath some program titles regarding the kinds of occupations or the types of products associated with the program.

Following the program titles and other information are coded references to schools which offer the programs. These references use a two-letter State abbreviation followed by a number. For example, MD 185 designates the 185th School in the State of Maryland, which can be quickly identified by referring to the directory listing under Maryland and locating the school numbered 185. State abbreviations are provided in appendix A; school numbers appear on the line just above their names in the directory listing.

Program Abbreviations

To conserve space in the directory listing, abbreviations or shortened names are used to indicate the various programs offered by a school.

Program titles are taken from *Standard Terminology for Curriculum and Instruction in Local and State School Systems, Handbook VI* (OE 23052); and *Vocational Education and Occupations* (OE 8061). Program titles and codes from these two publications are referred to as OE codes. Because no OE code exists for certain popular and/or new program offerings, a dummy code is assigned and asterisked in the list below.

Also incorporated in the program titles are the occupational programs that were reported on the survey forms for *Earned Degrees Conferred, 1980-1981*, Higher Education General Information Survey (HEGIS). The source of these programs is *A Taxonomy of Instructional Programs in Higher Education* (OE 50064). Such program titles and codes are referred to as HEGIS codes.

The following list provides the abbreviations used in the directory listing, the full name as it appears in the Program Index, and the associated OE and/or HEGIS codes:

Abbreviation	Name in Program Index	OE code	HEGIS code
Accounting	Accounting & computing occupations	14.01	5002
Advertising	Advertising services	04.01	---
Aero Tech	Aeronautical technologies	06.0101	5302
Agri Mech	Agricultural mechanics	01.03	---
Ag Production	Agricultural production	01.01	---
Ag Products	Agricultural products	01.04	---
Ag Resources	Agricultural resources	01.06	---
Ag Supplies	Agricultural supplies/services	01.02	---
Agri Tech	Agricultural technologies	16.0102	5402
Agri Misc	Agriculture, miscellaneous	01.99	---
A/C Repair	Air conditioning installation & repair	17.01	---
Air Pol Tech	Air pollution technologies	16.9901	---
Ground Ops	Aircraft ground operations	17.0403	---
Airctr Maint	Aircraft maintenance	17.0401	---
Airctr Ops	Aircraft operations	17.0402	---
Animal Lab	Animal laboratory assistant technologies	---	5206
Apparel	Apparel & Accessories	04.02	---
Appl Rep	Appliance repair	17.02	---
Arts	Applied arts, graphic arts, & fine arts technologies	---	5012
Arch Draft	Architectural drafting technologies	---	5304
Arch Tech	Architectural technologies	16.0103	---
Auto Repair	Automotive body & fender repair	17.0301	---
Auto Mech	Automotive mechanics	17.0302	---
Auto Sales	Automotive sales	04.03	---
Auto Serv	Automotive services	17.0399	---
Auto Spec	Automotive specialization repair	17.0303	---
Auto Tech	Automotive technologies	16.0104	5306
Banking/Fin	Banking & finance technologies	---	5003
